

April 2010  
Sean suggests.....

## LIGHT

**Lhasa beer** – Tibet Lhasa Brewery 4.6% abv

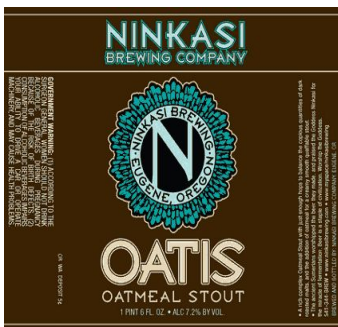

*So an industrial water lager OR? a socially conscious lager made with Himalayan spring water and Tibetan barley? I know what I would choose.*

## MEDIUM

**NapaSmith Brewing** – Organic IPA 7.1% abv

*This brewery is new to me but I bought a bottle of this beer review unseen because I am willing to take a chance on organic beer and I love IPA's.*

## DARK

**Ninkasi Brewing** – Oatis 7.5% abv

*I had the opportunity to speak with Jamie Floyd the brewer at Ninkasi at the Great American Beer Festival and he told me back in September of 09 that their beers would be in SoCal in 2010 and he was right! I have had Oatis twice recently and both times I have been impressed with the silky smoothness.*

Every month there will be a new light, medium and dark suggestion
